## Statement Of Truth

It is my belief that the phenomena known as the Mandela Effect is occurring worldwide to fulfill end times prophecies. It is my belief that the experience of having vivid memories of things that never existed is not misremembering and cannot be explained with naturalistic reasons.

It is my sworn testimony that the Mandela Effect is also supernaturally changing the bible in its entirety. Virtually all passages in all translations are being re written through some means which is unknown to most of humanity. The changes reflect dramatic changes to doctrine and are mysteriously going unnoticed by the majority of Christians. It is my hope that my sworn testimony will help to establish some credibility to those that are testifying that this is a real event.
