# Chapter 1 - Is it happening?

## **It's happening!**

Yes, the Mandela Effect is a real phenomenon, and the things that are changing in our reality include the Bible. Every paper Bible on every shelf in the world is being supernaturally altered. Every version, including Grandma's Gutenberg in the attic, now states that "the wolf also shall dwell with the lamb" in Isaiah 11:6. There are changes throughout, including new names and new places. There are names with eighteen letters. There are word switches, new countries, missing words, altered names, spelling, grammar, and syntax errors galore, changed stories, new stories, biblical paradoxes, cut-and-paste duplicates, Ebonics, emojis, gibberish, and nonsense verses.

We now see duplicated words, massive run-on sentences, modern words, unexplained use of capitalization and italics, blasphemy, sexual innuendo, ungodly themes, and a lot of very unfamiliar content that is leaving millions of Christians scratching their heads.

Certain versions contain changes not present in the KJV, while at other times, changes only appear in the KJV. That all changes do not appear in all versions seems to be another strategy to inject confusion into this debate.

We also see changes appearing in one part of the New Testament but not in another part of the same New Testament.

Some changes are in the Old Testament but not in the New Testament, and vice versa. Some changes are in one Gospel but not in any others, while other changes are in all Gospels. Some changes dramatically impact doctrine while others are benign.

You can see the same Greek or Hebrew word represented by two different English words in the same paragraph.

There are changes that only occur one time, while other passages change, and then change again. We also see changes on major Bible websites like Biblehub that do not appear on other sites like Biblegateway or Bible.com in the same versions.

Another type of change that seems to trick a lot of people is the multiplication of something that was always in the scripture. An example of this is a reference to cannibalism that was the result of the Judgment of God. This is something that most Bible believers remember being in their Bibles and we don't recognize it as a change. However, red flags are raised when we subsequently find that there are now nine references to cannibalism in our Bibles. (See below)

Another example of this multiplying of existing passages is the term "pisseth against the wall." I have a vivid memory of finding that in my Bible over thirty years ago, but I also remember noting that there was only one reference to it in the Bible at that time. Now, however, there are six such references: 1 Samuel 25:22, 1 Samuel 25:34, 1 Kings 14:10, 1 Kings 16:11, 1 Kings 21:21, 2 Kings 9:8.
